For radio control of RGB light colour, colour changing, dimming and switching 24V RGB Radio controller 75W without radio remote control

Order number:
20805003022

article in stock

Description:
Ready-to-connect 24 V RGB controller with wireless control and a maximum power of 75 W. Version without a wireless remote control, exclusively for use as an extension paired with an existing compatible wireless remote control. The existing remote control can switch RGB luminaires, dim them in four levels and adjust the light colour. The wireless range is up to 15 m and is reduced by walls and ceilings. The selector dial allows the colour to be adjusted freely and locks automatically after one minute. Seven colours and a smooth cross-fading colour sequence can be set with transition times of 8, 16, 32, 64 or 128 seconds. Any number of wireless controllers can be controlled in parallel with one wireless remote control. The memory function restores the previous light colour and brightness after disconnection from the mains. With connection cable, two LED 24 plugs and a 4-way distributor.

Connection: LED-Trafo DC 24V
Light colour: N/A
Energy efficiency class: N/A
Symbols: IP20, SK III
Weight: 0,07 kg

Special features:

- Wireless range with the existing remote control up to 15 m
- reduced by walls and ceilings
- With memory function (the previous light colour and brightness are restored after disconnection from the mains)
