Special features:

- Daylight has a huge impact on the well-being. Sky Window brings sunshine wherever it is needed.
- Create natural daylight indoor, thanks to full spectrum LEDs (Sunlike-LED) and a smart daylight control.
- The daylight ambience is realized by the simulated and illuminated 3D sky and the connectible solar radiation. Amazing real daylight effects can be achieved.
- Due to the used Sunlike-LED, the colour rendering is Ra > 95, the same applies to the R9 value.
- The colour appearance can be adjusted continuously from 2.500K to 10.000K per app.
- The smart light control enables the 24 hour rhythm and if necessary even analogously to the different time zones worldwide.
- Up to 64 Sky Window luminaires can be controlled and switched in parallel.
- Suitable for screen workstations! (UGR < 19)
