

Tape COB-4

4mm narrow, self-adhesive, homogeneous LED Tape COB-4 5m 25W xw

Descripción:

This flexible LED tape on a roll offers an extra warm light colour with approx. 2700K. Thanks to a continuous surface light, a homogeneous result without disturbing LED points is achieved. This makes the LED Tape an ideal solution even for demanding applications in shops etc. Thanks to the double-sided 3M adhesive tape already applied, installation is quick and easy. To perfectly fit the specific user situation, the LED strip can be cut every 50 mm from the roll. For better handling, the user can orientate himself on the segments of the roll when cutting: It consists of ten larger sections of 500 mm each. The self-adhesive LED strip is supplied with a 2.5 m connecting cable with LED 24 plug. A dimming controller with radio remote control, 1-10V, DALI, ZigBee as well as Sonar or WiFi/Alexa control are available as optional accessories.
